CAREER OBJECTIVE

BCA graduate specializing in AI & Data Analytics with hands-on experience in Excel, SQL, Python, Power BI, and data visualization. Seeking an entry-level **Data Analyst role** to apply analytical and problem-solving skills.

TECHNICAL SKILLS:

Programming & Data Analysis: Python, Pandas, NumPy, Data Cleaning, Data Manipulation, Data Transformation.

Database & SQL: SQL, MySQL, RDBMS, Database Design Fundamentals, SELECT, WHERE, GROUP BY, HAVING, ORDER BY, JOINS, Subqueries, DDL, DML, Aggregate Functions

Excel & BI Tools: Microsoft Excel (Advanced), VLOOKUP, HLOOKUP, XLOOKUP, INDEX-MATCH, Pivot Tables, Pivot Charts, Conditional Formatting, Data Validation, Dashboard Development, Power BI, Tableau

Analytics & Reporting: EDA, ETL Fundamentals, KPI Reporting, Business Intelligence Reporting, Statistical Analysis (Basic), Business Reporting, Data Visualization

AI & Productivity: ChatGPT, Copilot, Claude AI, Prompt Engineering, AI-assisted SQL Querying, **AI-assisted Python**.

Experience Data Analyst Intern – Indolike

Jul 2025 – Aug 2025 | **Remote**

Worked on Sentiment Analysis and Sales Trend Analysis projects using Python, NumPy, and Excel. Cleaned, transformed, and visualized datasets to identify trends and patterns. Collaborated with mentors to **improve data accuracy** and presentation.

PROJECTS:

1.. Sentiment Analysis – Amazon Product Review Analysis (Python)

■ [GitHub Project Link](#) | [Dataset \(Kaggle\)](#)

Technologies: Python, Pandas, NumPy, Jupyter Notebook

Key Responsibilities-

Performed **Data Cleaning** by handling missing values, duplicate records, inconsistent text, and formatting issues.

Used **Pandas** and **NumPy** for data preprocessing, manipulation, filtering, and statistical analysis.

Classified customer reviews into **Positive, Neutral, and Negative** sentiment categories.

Performed **Exploratory Data Analysis (EDA)** to identify rating distribution and customer feedback trends.

2.Sales Trend Analysis – Superstore Dataset

■ [GitHub Project Link](#)

Technologies: Microsoft Excel, Pivot Tables, Pivot Charts

Key Responsibilities-

Analyzed Superstore sales dataset to evaluate sales performance across different regions, categories, and customer segments.

Created **Pivot Tables, Pivot Charts**, and interactive reports for business analysis.

Identified monthly sales trends, profit distribution, top-performing products, and regional performance.

Used **VLOOKUP, Conditional Formatting**, and Excel formulas to automate data analysis.

3. Mastering SQL with Online Bookstore

– End-to-End Query Project

Technologies: SQL, MySQL

Key Responsibilities:-

Wrote optimized SQL queries using SELECT, WHERE, GROUP BY, HAVING, ORDER BY, **Aggregate Functions, JOINS, and Subqueries**.

Performed customer purchase analysis, **revenue analysis**, and product performance evaluation.

CERTIFICATIONS

[Samatrix.io](#) – AI & Data Analytics Training

Deep Learning Practical with Python, TensorFlow & Keras

Data Visualization

Probabilistic Modelling & Reasoning with Python by [Samatrix.io](#)

Introduction to Data Analysis – Simplilearn

VIRTUAL EXPERIENCE PROGRAMS

TATA Group – GenAI Powered Data Analytics Job Simulation (Forage)

Deloitte Australia – Data Analytics Job Simulation (Forage)

EDUCATION

Bachelor of Computer Applications (BCA) in – **Artificial Intelligence & Data Analysis**

LNCT University, Bhopal, Madhya Pradesh

2023 – 2026

CGPA: 7.9/10
